<p>History</p>	<p>English</p>	<p>Maths</p>	<p>Science</p>	<p>Art/DT</p>
<p>History is our driver subject this term. The children will be learning about significant people who have had made an impact on our lives today. We will be sorting these significant people into categories and using diamond ranking as a way of organising information and data. We will also be focusing on the different categories of significant people and developing a greater understanding of explorers, artists, scientists and activists which then further linked to Black History Month.</p>	<p>We will be developing our writing through focussing on the basics of full stops, capital letters and forming sentences using conjunctions. We will be looking at different genres, including: narratives and non-chronological reports.</p> <p>We will be developing our reading skills through a range of fiction and non-fiction texts in Whole Class Reading, sharing a Class Story for pleasure and working from model texts in our writing units.</p> <p>We will be learning a range of spelling rules as well as national curriculum statutory words which will then be assessed</p>	<p>We will be developing our understanding of place value, by reading, writing, comparing and ordering numbers up to 10. We will be learning how to use some of the language associated with this including, fewer, more, same, less than, greater than and equal to. We will be also learning how to add and subtract numbers up to 10 using part whole models, fact families, number bonds and number lines.</p>	<p>We be learning about Human Survival. This project teaches children about the basic needs of humans for survival, including the importance of exercise, nutrition and good hygiene. We will be learning about Habitats and what a habitat needs to provide. We will be exploring local habitats to identify and name living things and begin to understand how they depend on one another for food and shelter.</p>	<p>Mix It - This project teaches children about basic colour theory by studying the colour wheel and colour mixing. It includes an exploration of primary and secondary colours and how artists use colour in their artwork.</p> <p>Still Life - This project teaches children about the work of significant still life artists and still life techniques. They explore a wide variety of still life and learn about the use of colour and composition. They create still life arrangements and artwork.</p>

Autumn Term Overview – Year 2 – Miss Shears' Class

	regularly.			
Geography	PE	Computing	PSHE	RE
We will learn about atlases, maps and cardinal compass points as well as the characteristics of the four countries of the United Kingdom and find out why there are hot, temperate and cold places around the world.	We will be developing our fundamental skills in PE including jumping, throwing, catching and moving in different ways through REAL PE. We will also be applying these skills through Dance and Gymnastics.	We will continue to use digital technology to enhance our learning in class through research and using technology safely and using simple search technologies.	PSHE - We will be following units called Being Me in My World and Celebrating Differences which will include a range of activities and thought-provoking discussions.	We will be developing our knowledge of different religions by exploring Navratri (Hinduism) and Christmas (Christianity)
