Spring Term Overview – Year 4 – Miss Shears' and Mrs Hewitt's Class

Our Spring unit is
Rocks, Relics and
Rumbles
100

This unit teaches children about the features and characteristics of Earth's layers, including a detailed exploration of volcanic, tectonic and seismic activity.

Term Spring 3 and 4 Year 4

Duration – 12 weeks

Academic year 2024-2025

Key Themes:

Key Vocabulary

Erode, impermeable, lava,

molten, magma, organic

slider, linkages, wheel and axle.

English

Communication

Creativity

Community

Coastal

Big Picture

matter, tectonic plate, vent, volcanic eruption, sedimentary, igneous, metamorphic, crust, mantle, inner core, outer core, fossil, earthquake, tsunami, alloy, attract/attraction, aurora, compass, contact force, force meter, friction, lubricant, magnetic field, magnetic force, newton, non-contact force, repel/repulsion, tread pattern, abstract, elongated, muted, Renaissance, subject, cam, follower, mechanism, lever,

School Learning Values

matter, ring of fire, organic

Responsibility Resilience Respect Honesty Friendship

British Values

Individual Liberty Rule of Law **Mutual Respect** Tolerance Democracy

Key events/dates

Monday 6th January – First day back at school Wednesday 15th January – Young Voices Concert Week beginning: Monday 24th February – Parent Consultations Thursday 6th March – World Book Day Friday 7th March – Swimming Starts (for 5x weeks)

Monday 10th March – Science Week Monday 17th March – Friday 21st March – Book Fair

Friday 21st March – Red Nose Day

Thursday 27th March – Theatre Trip (Year 3 and Year 4)

Friday 4th April – Last day of Spring Term

*Daily reading and other reading linked activities. *Spelling practice for Friday test of keywords (sheets sent home) and fortnightly test of spelling rules.

Home Learning

*Use Times Table Rockstars at least 3 x per week.

Geography

Geography is the driver subject for this term. We will learn about the different layers of the Earth, including plate tectonics and their potential effects on the Earth's surface. We will investigate different types of rock to learn about their uses and properties. We will also investigate soil and fossils, including learning about the work of Mary Anning. We will have the opportunity to use maps to learn about the lines of latitude and longitude. We will also learn about volcanoes, earthquakes and tsunamis.

We will be developing our writing through looking at different genres, including: narratives, recounts, non-chronological reports and poetry.

We will be developing our reading skills through a range of fiction and non-fiction texts in Whole Class Reading, sharing a Class Story for pleasure and working from model texts in our writing units.

We will be learning a range of spelling rules as well as national curriculum statutory words which will then be assessed regularly.

Maths

We will be consolidating our understanding of the four operations (add, subtract, multiply and divide) as well as further learning and practising our timestables. We will then be focusing on fractions and measurement.

This project will look at contact and noncontact forces, including friction and magnetism. We will investigate frictional and magnetic forces and identify parts of a magnet and magnetic materials. We will use force meters to measure the forces needed to carry out everyday tasks and record their measurements. We will test the magnetic properties of different objects and learn about the magnetism of the Earth and how this enables compasses

The children will learn about cam mechanisms. They will experiment with different shaped cams before designing, making and evaluating a child's automaton toy.

DT

French

We will continue learning how to greet someone using the French language as well as counting to 12 and saying our age.

We will be developing our gymnastic skills incorporating balance and coordination as well as developing ball skills through different invasion activities.

Computing

We will continue to use digital technology to enhance our learning in class through research and using technology safely and using simple search technologies.

PSHE

to work.

Science

Dreams and Goals and Healthy Me. Dreams and Goals will look at aspirations, challenges, teamwork and resilience. The Healthy Me unit will work on self-esteem, confidence and healthy lifestyle choices.

We will be developing out knowledge about Lent within the Christian faith.
